Engineering Capability, Execution Methodology & Industry Expertise

CORPORATE OVERVIEW

BioInfratech is an integrated turnkey engineering consortium delivering critical infrastructure for Healthcare, Pharmaceutical, Life Sciences, Biosafety Laboratories and Semiconductor sectors across India. Backed by **140+ years of combined team expertise**, we bring together design consulting, manufacturing, execution and validation under a single point of responsibility — one consortium, one contract, one accountability.

One Consortium. • One Contract. • One Accountability.

01 CORE CAPABILITIES

01 HEALTHCARE INFRASTRUCTURE

Hospital Planning, Modular Operation Theatres, ICU & CSSD Infrastructure

02 PHARMA & CLEANROOM

GMP Facilities, Cleanroom Engineering (ISO Classified) & HVAC Systems

03 BIOSAFETY & LABORATORIES

Biosafety Laboratories (BSL-2/BSL-3), Research & Diagnostic Lab Infrastructure

04 MEDICAL GASES & AUTOMATION

Medical Gas Pipeline Systems & Building Automation

05 SEMICONDUCTOR ENVIRONMENTS

Semiconductor Cleanroom & Controlled Environment Infrastructure

06 VALIDATION & LIFECYCLE

Validation, Commissioning, Qualification (DQ/IQ/OQ/PQ) & Lifecycle AMC Support

02 EXECUTION METHODOLOGY

A single, integrated delivery sequence from first consultation through lifecycle support.

03 STANDARDS & COMPLIANCE

Our engineering practices align with ISO 9001, ISO 14001, ISO 45001, CDSCO, NABH and applicable cGMP guidelines, ensuring globally benchmarked quality, safety and regulatory compliance on every project.
